

American Journal of Physiology- Cell Physiology

MARCH 2008/Volume 63, Number 3

EDITORIAL FOCUS

Mechanosignal transduction coupling between endothelial and smooth muscle cells: role of hemodynamic forces

T. K. Hsiai

C659

CALL FOR PAPERS Protein and Vesicle Trafficking, Cytoskeleton

Direct interaction between Rab3D and the polymeric immunoglobulin receptor and trafficking through regulated secretory vesicles in lacrimal gland acinar cells

E. Evans, W. Zhang, G. Jerdeva, C.-Y. Chen, X. Chen, S. F. Hamm-Alvarez, and C. T. Okamoto

C662

TRANSLATIONAL PHYSIOLOGY

Human mesenchymal stem cells stimulated by TNF- α , LPS, or hypoxia produce growth factors by an NF κ B- but not JNK-dependent mechanism

P. R. Crisostomo, Y. Wang, T. A. Markel, M. Wang, T. Lahm, and D. R. Meldrum

C675

MEMBRANE TRANSPORTERS, ION CHANNELS, AND PUMPS

Intracellular ClC-3 chloride channels promote bone resorption in vitro through organelle acidification in mouse osteoclasts

F. Okamoto, H. Kajiyama, K. Toh, S. Uchida, M. Yoshikawa, S. Sasaki, M. A. Kido, T. Tanaka, and K. Okabe

C693

K restriction inhibits protein phosphatase 2B (PP2B) and suppression of PP2B decreases ROMK channel activity in the CCD

Y. Zhang, D.-H. Lin, Z.-J. Wang, Y. Jin, B. Yang, and W.-H. Wang

C765

Apical maxi-K (K_{Ca}1.1) channels mediate K⁺ secretion by the mouse submandibular exocrine gland

T. Nakamoto, V. G. Romanenko, A. Takahashi, T. Begenisich, and J. E. Melvin

C810

Apparent intermediate K conductance channel hyposmotic activation in human lens epithelial cells

P. K. Lauf, S. Misri, A. A. Chimote, and N. C. Adragna

C820

MUSCLE CELL BIOLOGY AND CELL MOTILITY

Serum response factor neutralizes Pur α - and Pur β -mediated repression of the fetal vascular smooth muscle α -actin gene in stressed adult cardiomyocytes

A. Zhang, J. J. David, S. V. Subramanian, X. Liu, M. D. Fuerst, X. Zhao, C. V. Leier, C. G. Orosz, R. J. Kelm, Jr., and A. R. Strauch

C702

(Continued)

Cover: Coimmunofluorescence analysis of collagen type I (green) and desmin (red) in differentiated C2C12 after 5 days in differentiation medium showing that collagen type I expression prevents the differentiation of the myoblast cells. From: Alexakis C, Partridge T, and Bou-Gharios G. "Implication of the satellite cell in dystrophic muscle fibrosis: a self-perpetuating mechanism of collagen overproduction." *Am J Physiol Cell Physiol* 293: C661-C669, 2007.

This Journal is printed on "acid-free" paper.

(Contents continued)

NFAT activation by membrane potential follows a calcium pathway distinct from other activity-related transcription factors in skeletal muscle cells

*J. A. Valdés, E. Gaggero, J. Hidalgo, N. Leal, E. Jaimovich,
and M. Angélica Carrasco*

C715

RECEPTORS AND SIGNAL TRANSDUCTION

Role of PKC- δ on substance P-induced chemokine synthesis in pancreatic acinar cells

R. D. Ramnath, J. Sun, S. Adhikari, L. Zhi, and M. Bhatta

C683

Trauma-hemorrhage inhibits splenic dendritic cell proinflammatory cytokine production via a mitogen-activated protein kinase process

*T. Kawasaki, M. A. Choudhry, M. G. Schwacha, S. Fujimi, J. A. Lederer, K. I. Bland,
and I. H. Chaudry*

C754

VASCULAR BIOLOGY

Transport-dependent calcium signaling in spatially segregated cellular caveolar domains

D. Hong, D. Jaron, D. G. Buerk, and K. A. Barbee

C856

GROWTH, DIFFERENTIATION, AND APOPTOSIS

Inhibition of Src and p38 MAP kinases suppresses the change of claudin expression induced on dedifferentiation of primary cultured parotid acinar cells

J. Fujita-Yoshigaki, M. Matsuki-Fukushima, and H. Sugiya

C774

CXCR2 agonists in ADPKD liver cyst fluids promote cell proliferation

*C. R. Amura, K. S. Brodsky, B. Gitomer, K. McFann, G. Lazenec, M. T. Nichols,
A. Jani, R. W. Schrier, and R. Brian Doctor*

C786

Overexpression of TRPC3 increases apoptosis but not necrosis in response to ischemia-reperfusion in adult mouse cardiomyocytes

D. Shan, R. B. Marchase, and J. C. Chatham

C833

TAT-mediated PRDX6 protein transduction protects against eye lens epithelial cell death and delays lens opacity

E. Kubo, N. Fatma, Y. Akagi, D. R. Beier, S. P. Singh, and D. P. Singh

C842

PROTEIN AND VESICLE TRAFFICKING, CYTOSKELETON

Nonredundant function of secretory carrier membrane protein isoforms in dense core vesicle exocytosis

H. Liao, J. Zhang, S. Shestopal, G. Szabo, A. Castle, and D. Castle

C797

NERVOUS SYSTEM CELL BIOLOGY

Insights into Zn²⁺ homeostasis in neurons from experimental and modeling studies

*R. A. Colvin, A. I. Bush, I. Volitakis, C. P. Fontaine, D. Thomas, K. Kikuchi,
and W. R. Holmes*

C726

METHODS IN CELL PHYSIOLOGY

Two-dimensional kinetics of β_2 -integrin and ICAM-1 bindings between neutrophils and melanoma cells in a shear flow

S. Liang, C. Fu, D. Wagner, H. Guo, D. Zhan, C. Dong, and M. Long

C743

CORRIGENDUM

Corrigendum for Wang Y et al., Volume 292/61, May 2007, p. C1775–C1786

C867

Information for Authors is freely available online at http://www.the-aps.org/publications/journals/pub_quick.htm and is printed in the June and December issues of the Journal.
