

American Journal of Physiology- Cell Physiology

MAY 2008/Volume 63, Number 5

PERSPECTIVES IN CELL PHYSIOLOGY

- Image acquisition for colocalization using optical microscopy
D. R. L. Scriven, R. M. Lynch, and E. D. W. Moore C1119

EDITORIAL FOCUS

- Mitochondrial fluidity matters.* Focus on “Inherited complex I deficiency is associated with faster protein diffusion in the matrix of moving mitochondria”
G. Benard and R. Rossignol C1123

MEMBRANE TRANSPORTERS, ION CHANNELS, AND PUMPS

- Differentiation-dependent changes in the membrane properties of fiber cells isolated from the rat lens
K. F. Webb and P. J. Donaldson C1133
- Prolactin stimulates transepithelial calcium transport and modulates paracellular permselectivity in Caco-2 monolayer: mediation by PKC and ROCK pathways
N. Thongon, L.-I. Nakkrasae, J. Thongbunchoo, N. Krishnamra, and N. Charoenphandhu C1158
- Pyridoxine uptake by colonocytes: a specific and regulated carrier-mediated process
Z. M. Said, V. S. Subramanian, N. D. Vaziri, and H. M. Said C1192
- The vitamin D receptor agonist elocalcitol upregulates L-type calcium channel activity in human and rat bladder
A. Morelli, R. Squecco, P. Failli, S. Filippi, L. Vignozzi, A. K. Chavalmane, B. Fibbi, R. Mancina, G. Luciani, M. Gacci, E. Colli, F. Francini, L. Adorini, and M. Maggi C1206
- Carbonic anhydrase 2-like a and 15a are involved in acid-base regulation and Na⁺ uptake in zebrafish H⁺-ATPase-rich cells
T.-Y. Lin, B.-K. Liao, J.-L. Horng, J.-J. Yan, C.-D. Hsiao, and P.-P. Hwang C1250
- Molecular mechanisms of epithelial cell-specific expression and regulation of the human anion exchanger (pendrin) gene
L. Adler, E. Efrati, and I. Zelikovic C1261

MUSCLE CELL BIOLOGY AND CELL MOTILITY

- Syncoilin is required for generating maximum isometric stress in skeletal muscle but dispensable for muscle cytoarchitecture
J. Zhang, M.-L. Bang, D. S. Gokhin, Y. Lu, L. Cui, X. Li, Y. Gu, N. D. Dalton, M. C. Scimia, K. L. Peterson, R. L. Lieber, and J. Chen C1175
- Endogenous interferon- γ is required for efficient skeletal muscle regeneration
M. Cheng, M.-H. Nguyen, G. Fantuzzi, and T. J. Koh C1183

(Continued)

Cover: Coimmunofluorescence analysis of collagen type I (green) and desmin (red) in differentiated C2C12 after 5 days in differentiation medium showing that collagen type I expression prevents the differentiation of the myoblast cells. From: Alexakis C, Partridge T, and Bou-Gharios G. “Implication of the satellite cell in dystrophic muscle fibrosis: a self-perpetuating mechanism of collagen overproduction.” *Am J Physiol Cell Physiol* 293: C661–C669, 2007.

This Journal is printed on “acid-free” paper.

(Contents continued)

RECEPTORS AND SIGNAL TRANSDUCTION

- Elucidation of the signaling network of COX-2 induction in sheared chondrocytes: COX-2 is induced via a Rac/MEKK1/MKK7/JNK2/c-Jun-C/EBP β -dependent pathway
Z. R. Healy, F. Zhu, J. D. Stull, and K. Konstantopoulos C1146
- Phosphorylation of β -catenin by PKA promotes ATP-induced proliferation of vascular smooth muscle cells
S. Taurin, N. Sandbo, D. M. Yau, N. Sethakorn, and N. O. Dulin C1169
- FGF-16 is released from neonatal cardiac myocytes and alters growth-related signaling: a possible role in postnatal development
S. Y. Lu, D. P. Sontag, K. A. Detillieux, and P. A. Cattini C1242
- Calmodulin in adult mammalian skeletal muscle: localization and effect on sarcoplasmic reticulum Ca²⁺ release
G. G. Rodney C1288

VASCULAR BIOLOGY

- IL-4 and IL-13 upregulate ornithine decarboxylase expression by PI3K and MAP kinase pathways in vascular smooth muscle cells
L. H. Wei, Y. Yang, G. Wu, and L. J. Ignarro C1198
- Thrombin-induced endothelial barrier disruption in intact microvessels: role of RhoA/Rho kinase-myosin phosphatase axis
G. P. van Nieuw Amerongen, R. J. P. Musters, E. C. Eringa, P. Sipkema, and V. W. M. van Hinsbergh C1234

GROWTH, DIFFERENTIATION, AND APOPTOSIS

- Thrombin mediates mitogenesis and survival of human endothelial cells through distinct mechanisms
P. Zania, M. Papaconstantinou, C. S. Flordellis, M. E. Maragoudakis, and N. E. Tsopanoglou C1215
- Induced TRPC1 expression increases protein phosphatase 2A sensitizing intestinal epithelial cells to apoptosis through inhibition of NF- κ B activation
B. S. Marasa, L. Xiao, J. N. Rao, T. Zou, L. Liu, J. Wang, E. Bellavance, D. J. Turner, and J.-Y. Wang C1277

CELLULAR AND MITOCHONDRIAL METABOLISM

- Inherited complex I deficiency is associated with faster protein diffusion in the matrix of moving mitochondria
W. J. H. Koopman, F. Distelmaier, M. A. Hink, S. Verkaart, M. Wijers, J. Fransen, J. A. M. Smeitink, and P. H. G. M. Willems C1124
- H9c2 cardiomyoblasts produce thyroid hormone
C. Meischl, H. P. Buermans, T. Hazes, M. J. Zuidwijk, R. J. P. Musters, C. Boer, A. van Lingen, W. S. Simonides, M. A. Blankenstein, C. Dupuy, W. J. Paulus, C. E. Hack, C. Ris-Stalpers, D. Roos, and H. W. M. Niessen C1227

Information for Authors is freely available online at http://www.the-aps.org/publications/journals/pub_quick.htm and is printed in the June and December issues of the Journal.
