Scope of Journal
The American Journal of Physiology-
Lung Cellular and Molecular Physiology
is your comprehensive resource for the
most exciting new findings in respiratory
physiology.

AJP-Lung Cellular and Molecular
Physiology covers all areas of respiratory
physiology, including:
- original theoretical and research papers
dealing with molecular, cellular, and
morphological aspects of normal and
abnormal function of cells and
components of the respiratory system
- specific coverage of gas exchange and
metabolic control at a cellular level,
regulatory and informational molecules,
gene expression, macromolecules,
cell-to-cell motility, secretory mechanisms,
membrane function, and the response
of the respiratory system and its
components to the environment
